Gifts of Securities - Let CSS Help!

Publicly Traded Shares donated to Canadian Charities can completely eliminate the associated capital gains taxes.

We know you don't give to charity just because of the tax breaks, but tax savings certainly can be helpful! Did you know that if you donate securities (stocks, mutual funds, etc.) which have increased in value that there are additional benefits other than the tax receipt you receive?

If you are invested in stocks or mutual funds, consider discussing how you can use those investments to make your annual donations rather than writing cheques. You'll be able to support the mission of your favourite charities just as you do now, but much more efficiently from a tax perspective! But what if the charity you want to support doesn't have a brokerage account? No problem! CSS is happy to help facilitate these gifts. You can make a transfer of stock to CSS and we will distribute it to as many charities as you wish using our Gift Distribution Service. Click [HERE](#) for more information or call Brian Dol, our Financial Resource Officer at CSS directly for further details. He can be reached at 1-800 267-8890 Ext 220 or by emailing briand@cssservices.ca

MemberNET
