

# A VIBRANT MONTH FOR A GIVING PLAN !

**SERVING CLIENTS  
ACROSS CANADA  
VIRTUALLY AND  
IN-PERSON**

CSS is often referred to as a 'One Stop Shop' for giving tools, information, and help. If you have decided in your heart to give, we can help.

We offer FREE Gift Planning consultations as well as Will & Estate reviews on behalf of our partners.

With the arrival of warmer weather, the atmosphere is charged with anticipation and excitement as people look forward to the fun-filled days of summer. During these dog-days-of-summer, many charities suffer a drop in income as families and individuals begin planning and taking their summer vacation. You can make a significant impact on your favourite charity by adding to your summer plan a charitable gift to help your charity continue its valuable work in the community. CSS can make that simple, or even automatic, give us a call to make the arrangements.

## ***A Child Called Charity***

In simplistic terms adding "A Child Called Charity" to your will means that when it comes time to divide your estate its residue is divided by the number of children you have plus one.

If you have one child fifty percent of your estate would go to charity and the other half to your child. If you have nine children, ten percent would go to charity and the other ninety percent would be divided among your children.

Throughout our lives we teach children to keep a place in their heart for the Lord, and to remember Him in our daily studies, work and leisure. How appropriate that in our last will and Testament we should reserve a place for a child called Charity. Even if we do not have children we can imitate a child called Charity using a simple percentage.

Christian Stewardship Services can assist you in preparing the necessary documents through our Will services which help you decide whether a child called Charity is right for you.

You can create a lasting legacy, support your loved ones and a charitable cause which are important to you.

There is no obligation, so take the next step and contact us today. 800-267-8890 ext 217 or click the link below to schedule an online appointment.
